

Dear Members of the Postal Regulatory Commission

Michael Kubayanda, Acting Chair
Ashley Polin, Vice-Chair
Tony Hammond, Commissioner
Ann C. Fisher, Commissioner
Robert Taub, Commissioner

RECEIVED

2021 JUN -9 A 11: 05

POSTAL REGULATORY
COMMISSION
U.S. DEPARTMENT OF COMMERCE

May 21, 2021

We the undersigned are severely concerned about the proposed 10 year plan by Mr. DeJoy to change the regulations and availability of the USPS. As described by news reporters the changes he is considering would adversely affect the well-being of all the citizens of our nation.

Mail deliveries would be delayed and this could do harm to elderly people like ourselves who rely on medications coming by mail, or, cost more if relegated to other agencies for delivery which also punishes those of us with limited financial resources.

Decreasing the number of postal stations destroys our national system of communicating effectively. We need the USPS as it is now for business transactions, emotional support, timely notices, and convenience for elderly citizens and people in distant locations in particular.

Please use common sense to object to this plan by Mr. DeJoy and keep us citizens in a better position to receive justice and fairness by maintaining the services of the USPS as they are effectively and currently available to us.

Sincerely,
